| Team ID:       | LTVIP2026TMIDS71508                          |
| Project Name:  | Calculating Family Expenses Using ServiceNow |
| Maximum Marks: |  |

### Model Performance Testing

| S.No | Parameter           | Values   | Screenshot   |
|------|---------------------|--|--|
| 1    | Application Summary | Expense data stored successfully. Automatic calculation using business rules works correctly. Expense summaries update in real time. |   |
| 2    | Accuracy            | Daily expense calculations verified. Monthly summaries match expected totals. System calculations are accurate.                      |  |

|   |                   |   |
|---|-------------------|---|
| 3 | Automation Result | Family expense totals automatically update when daily expenses are added or modified. |
|---|-------------------|---|

Conclusion: The application performs correctly with accurate expense recording, automatic calculations, and report generation.
